در باره من:

-Do you love to listen to the silence? Do you prefer to do it yourself or surrounded by sensuous brown haired Lady, with which everything is possible: from the autumn dream of eternal fire, indulge in sensual pleasures on luxury silk sheets, talking about everything and nothing at the same time in the morning in a hotel away from home. I am one of those who are called "friendly" pleasant in all respects, gentle, caring, passionate, sensual. Apart from the door to the "world of passion", which will be open to you even at our first acquaintance, I can be dreaming, philosophizing, to share the most intimate and just sit in silence, resting from the hours of sweet, captivating bliss, from the experience "of the volcano of pleasure."
